Download page

This page does not fit at all.

Customers order every logo exclusively. So after buying the logo is not shown on the platform any more. So the download page must contain the option to download the logo files:

Ai

EPS

PDF

PNG

JPG

PSD

SVG

All separately and also all together as zip file.

Also the download page must contain an option to download a logo certificate (this is a pdf file with information about their license).

And the download page must contain a button: Request Free Customization

User Account page

The user account page is missing.

That page must contain My Favorites, My Logos (this contains the bought logos), Messages, Configuration, Subscriptions

Customization/Designer chat

Create a chat similar to the chat of Upwork in which designer and customer communicate for logo changes. Customer requests changes (they are limited to 3) and designer uploads the changed logo (optionally also with text) and customer can see it and approve it or request another change. After 3 changes customer can pay for additional changes.
